

Microsoft Outlook 2010 on Windows

Adding a new email account to Outlook 2010 in Windows

1. Open Outlook
2. Click File, then click on + Add Account

3. Select **Manually configure server settings or additional server types** at the bottom of the page, then click **Next >**

The "Add New Account" dialog box, "Auto Account Setup" screen. It has a title bar with "Add New Account" and a close button. Below the title bar is the heading "Auto Account Setup" and the instruction "Connect to other server types." There are three radio button options: "E-mail Account", "Text Messaging (SMS)", and "Manually configure server settings or additional server types". The "Manually configure server settings or additional server types" option is selected. Below the radio buttons are four text input fields: "Your Name:" (with example "Ellen Adams"), "E-mail Address:" (with example "ellen@contoso.com"), "Password:", and "Retype Password:" (with instruction "Type the password your Internet service provider has given you."). At the bottom right are three buttons: "< Back", "Next >", and "Cancel".

4. Choose **Internet E-mail**, then click on **Next >**

The "Add New Account" dialog box, "Choose Service" screen. It has a title bar with "Add New Account" and a close button. Below the title bar is the heading "Choose Service". There are three radio button options: "Internet E-mail", "Microsoft Exchange or compatible service", and "Text Messaging (SMS)". The "Internet E-mail" option is selected. Below the radio buttons are three lines of text describing each service. At the bottom right are three buttons: "< Back", "Next >", and "Cancel".

5. Enter **Your Name** and full **E-mail Address**

The "Add New Account" dialog box, "Internet E-mail Settings" screen. It has a title bar with "Add New Account" and a close button. Below the title bar is the heading "Internet E-mail Settings" and the instruction "Each of these settings are required to get your e-mail account working." The screen is divided into several sections: "User Information" with fields for "Your Name:" (filled with "Joe Suzuki") and "E-mail Address:" (filled with "joe.test@xplornet.com"); "Server Information" with a dropdown for "Account Type:" (set to "IMAP"), and fields for "Incoming mail server:" (filled with "imap.xplornet.com") and "Outgoing mail server (SMTP):" (filled with "smtp.xplornet.com"); "Logon Information" with fields for "User Name:" (filled with "joe.test@xplornet.com") and "Password:" (filled with "*****"), and a checked checkbox for "Remember password"; and "Test Account Settings" with a "Test Account Settings ..." button and a checked checkbox for "Test Account Settings by clicking the Next button". At the bottom right are three buttons: "< Back", "Next >", and "Cancel".

6. Set the **Account Type** to **IMAP** (POP3 is an option but is not recommended)
7. Enter the **Incoming mail server** as **mail3.cciwireless.ca**
8. Enter the **Outgoing mail server (SMTP)** as **mail3.cciwireless.ca**
9. Change the **User Name** to your **full email address**, including the portion after the @ symbol (e.g., joe.test@cciwireless.ca)

10. Enter your email **Password**

11. Click on **More Settings...**, then go to the **Outgoing Server** tab

12. Place a check mark in **My outgoing server (SMTP) requires authentication**

13. Go to the **Advanced** tab

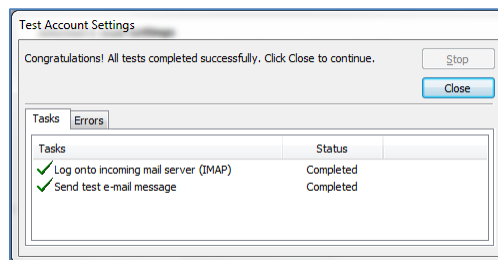

14. For **both** the **Incoming server (IMAP)** and **Outgoing server (SMTP)**, set “Use the following type of encryption connection” to **SSL**

15. Change the **Outgoing server (SMTP) Port Number** to **587**

16. Click **OK**

17. Click on **Next >**

a. If either or both test Tasks fail (red **X**), then one or more of your settings are incorrect. Click Close, correct your setting(s) and try again.

18. Once the test **Tasks complete** successfully (**green** checkmarks), click **Close** and then **Finish**

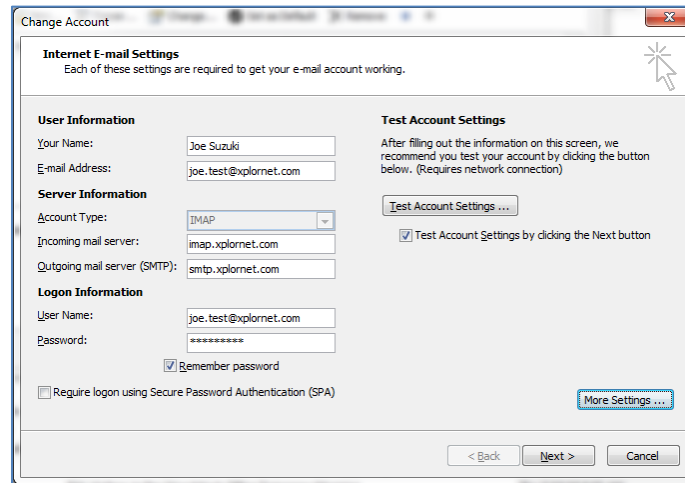

19. Click **File**, then click on **Account Settings**, then click on **Account Settings** again

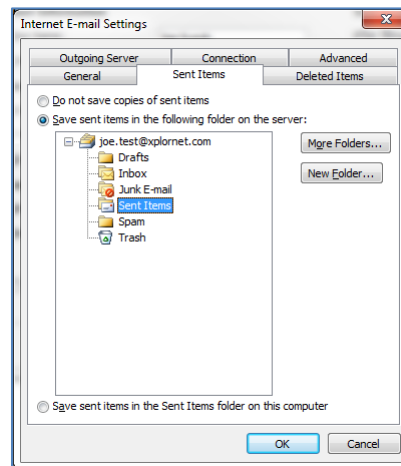

20. Select the **email you just created** and click **Change...**

21. Click on **More Settings**

22. Go to the **Sent Items** tab

23. Verify that **“Save sent items in the following folder on the server”** is selected and that the **Sent Items** folder is selected under your email address; otherwise select it

24. Go to the **Deleted Items** tab

25. Verify that the **Trash** folder is selected under your email address; otherwise select it

26. Click **OK**

27. Remove the check mark from **Test Account Settings** by clicking the **Next** button

28. Click on **Next >**, then **Finish**, and then **Close**

Changing your Email Password

If you **changed your email password** in [webmail](#), you will need to change it in Outlook to match the new password.

Outlook should prompt you for your new password:

Enter your new **Password**, check the box of "**Save this password in your password list**" (unless you wish to enter it every time) and click **OK**

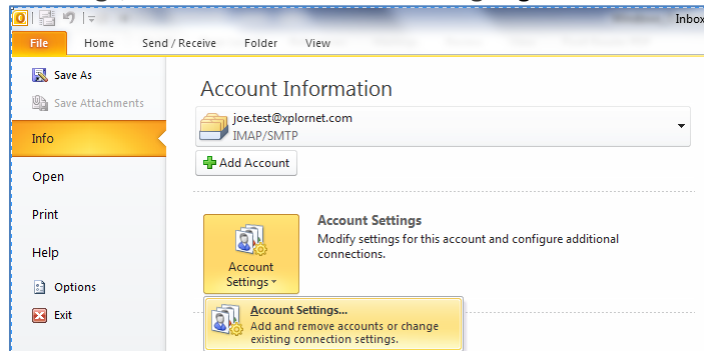

It should also prompt you when you send a message from Outlook:

Enter your new **Password**, check the box of "**Save this password in your password list**" (unless you wish to enter it every time) and click **OK**

If Outlook doesn't prompt you for your new password, follow these steps:

1. Click **File**, then click on **Account Settings**, then click on **Account Settings** again

2. Select the **email you just created** and click **Change...**

3. Enter your new **Password**

Change Account

Internet E-mail Settings
Each of these settings are required to get your e-mail account working.
